

AMTA Technical Tour

Tuesday, 12 April 2011

Thales Alenia Space Facilities for Space Antennas and Satellites

Thales Alenia Space, European leader for satellite systems, will host a two-visits tour inside their new clear-room (class 100000) facilities. The first visit will disclose advanced equipment for the electromagnetic and thermal characterization of space antennas, while a second visit will introduce the EUCAP attendees to the integration of Space Satellites.

Preliminary Program

12 April 2011

- 14:30 Departure from Palazzo dei Congressi
- 15:15 Tour at Thales Alenia Space
- 17:00 Departure for Palazzo dei Congressi
- 18:00 Return to Palazzo dei Congressi

Venue

Via Saccomuro 24, 00131 Roma

To register

The technical visit will **be free of charge** for all attendees.

Admission to **the tour is limited to 50 delegates** with pre-booking only.
