

SAQ in Grimeton, Sweden

# The Last Pre-electronic Radio Transmitter

for Transatlantic Communications,  
*will send its greetings to EUCAP2011.*

Thursday April 14, 14.45 Room A

SAQ Grimeton operates at 17.2 kHz (VLF) with a 200 kW Alexanderson alternator and a 2.2 km long antenna, using Morse Code. Built in 1922-1924, it is now on the Unesco World Heritage List.

A fully working receiving station will be setup in **Room A** for live “vintage” Morse communication with Grimeton.
